

Debbie's Thoughts:

Thanks for coming out to support us & the Randleman FFA Alumni. We had 102 hooks. Had a lot of new pullers, hope we made you feel welcome. Flattering that so many drove long distances to come pull with us.

This was the smoothest pull in a long time. Nothing broke. Think a few of you had breakages. Hope you can get them fixed before our next pull.

The weather cooperated somewhat. I don't like it hot, but a little warmer would have been nice. We appreciate you staying in the cold. Thank God it didn't rain.

When it is hot, I love night pulls. Cools off some after dark & the track just keeps getting better. This time of year I like to be done pulling before dark. Think most of you do too. Some pullers told me that was why they weren't coming. Too late when they get home & too cold. I don't like the new time change, but at least we all got an extra hour of sleep. Think a lot of us needed it by the time we got home.

Special thanks to everyone that worked with us. Few of our regular workers were absent. We missed them, but a lot of you did a good job filling in.

Hope to see everyone at Ace Speedway on November 17th. We are going to start at 11:00 am. Ricky has one of his family Thanksgiving dinners that night. Want to make sure we are done so he won't miss it.

Praying we are going to have good weather for this one too. At least we will be pulling in the warmest part of the day. Brad said they will have coffee & hot chocolate. That will help too.

Don't forget everyone will have to pay \$5 admission. We appreciate you paying that. Like I said before, we can't afford to rent a track, bathrooms & lights. We are so glad Brad shares all of Ace's facilities with us. Hook fees will be our usual \$5.

Not sure if they will be racing go karts. They hadn't decided, last I heard. We may be the only event again.

Don't forget to go vote, Tuesday November 6th!
